EDUCATION

B.Tech in AIML 2023–2027 Vellore Institute of Technology, Vijayawada	CGPA: 7.79	Amaravathi, AP
Secondary Higher Education Vignan Co-operative junior college, Vadlamudi	Percentage : 97.5%	Guntur, AP
10th Standard Sri Gowthami high school, Inkollu	Percentage : 100%	Inkollu, AP

TECHNICAL SKILLS

Programming Languages Java, Python, C++	Web Technologies HTML, CSS, JavaScript, React.js, Node.js, Express.js
Databases and Connectivity MySQL, MongoDB	Core CS Concepts DSA, OOPs, DBMS, OS
Version Control System Git, GitHub	Operating Systems Ubuntu, Centos, Windows

PROJECTS

Portfolio Website | HTML, CSS, JavaScript

- Developed a responsive personal portfolio website to showcase projects, technical skills, and achievements.
- Designed a clean and user-friendly interface with dedicated sections for profile, projects, skills, and contact information.

SmartPlacement Portal | MERN

- Developed a full-stack placement management portal using React.js, Node.js, Express.js, and MongoDB.
- Implemented JWT-based authentication and role-based access control for students and admins.
- Designed REST APIs for placement tracking, job posting, and student management.
- Improved frontend reusability using component-based architecture.

RESEARCH EXPERIENCE

Hybrid Attention-Based Multi-Task U-Net for Ischemic Stroke Lesion Segmentation

Research Paper — IEEE (Under Review)

- Contributed to research on deep learning-based medical image segmentation using MRI scans.
- Assisted in dataset analysis, research documentation, and evaluation of model performance on the ISLES 2022 dataset.
- Studied attention-based U-Net architectures for stroke lesion segmentation and infarct prediction.

CERTIFICATIONS

DevOps Engineer Intern | IBM

- Gained hands-on experience in DevOps practices, focusing on automation, collaboration, and software lifecycle management.
- Worked on infrastructure management, security, monitoring, and troubleshooting using DevOps tools.

Oracle AI Foundations Associate

- Validated foundational knowledge in Artificial Intelligence, Machine Learning, Generative AI, and OCI AI infrastructure.

ACHIEVEMENTS

- Solved 100+ DSA problems on LeetCode and GeeksforGeeks
- Participated in HackthruSummer Hackathon
- Co-authored an IEEE research paper on medical image segmentation
- Built and deployed full-stack web applications using MERN stack technologies
